PLANTING INSTRUCTIONS:

When to Plant. As early as possible after the first killing frost.

Care of Trees on Arrival. If not ready to plant immediately, dig a trench, unpack the trees and heel in, cover the roots with earth, and water freely.

Preparing the Trees for Planting. Remove all broken roots. Cut back one-year peach, apple, cherry, pear and plum trees to a naked stem, 1 1/2 to 2 feet high, leaving no side branches. Two-year-old trees should have branches cut back to half their length, the lower limbs shorter than those immediately above, then cutting them shorter as you go upward, leaving a long leader.

Preparing the Soil. Fruit trees succeed best in rich loam, naturally dry or made so by drainage. Make the holes at least 2 feet wide, and 2 feet deep. Cover the roots with surface soil, tamping thoroughly as the hole is filled. Use thoroughly rotted manure or bonemeal mixed with the soil. Do not put fresh manure around the roots.

Cultivation. Stir the soil frequently during the summer to conserve moisture and remove weeds. Cut suckers or branches that start below the head. Lime, bonemeal, or a high-grade commercial fertilizer may be used as required. Mulch trees at least for first and second years after planting.

FRUITLAND NURSERIES—The South’s Oldest Nursery—Augusta, Ga.
CRAB-APPLES
Each 10
2 yr., well branched............$1.50 $18.50
1-yr. 4 to 5 ft................... 1.25 11.00
Golden Beauty. Fruit beautiful golden yellow.
King. Native. Lemon-yellow, bright carmine cheek.
Transcendent. Yellow striped with red.

APRICOTS
Each 10
4 to 5 ft........................$1.50 $14.00
3 to 4 ft........................ 1.00  9.00

FRUITLAND NURSERIES—The South’s Oldest Nursery—Augusta, Ga.

CHERRIES
Each
4 to 5 ft., heavy................  $1.75
3 to 4 ft., heavy................  1.50
2 to 3 ft........................  1.25
Black Tartarian. Large; black; sweet.
Early Richmond. Medium size; light red; acid. Late May.
Governor Wood. Large; yellow and red; sweet.
Large Montmorency. Large; rich red. Follows Early Richmond. A good bearer.

FIGS
Each
2 to 3 ft.........................$1.25
18 to 24 in....................  1.00
Black Ischia. Medium, blue-black; good. Bears abundant crops, and is hardy.
Brown Turkey. Medium; brown; sweet and excellent; very prolific.
Brunswick. Very large; violet; pulp thick; quality good.
Celeste (Sugar). Sweet and excellent. Hardest of all figs. Early.
Green Ischia. Green with crimson pulp. Middle of July until frost.
White Genoa. Yellow with white flesh.

OLIVE
Picholine Olive. Flourishes in barren rocky soil. Extensively cultivated along coast of Georgia and South Carolina.

Each
2 to 3 ft........................$2.50
18 to 24 in............  1.50
12 to 18 in.............  1.00

PEACHES—Freestone
Prices of all peaches:
Each 10
4 to 5 ft...... $ .65 $ 5.50
3 to 4 ft...... .55  4.50
2 to 3 ft..... .40  3.50
Belle (Belle of Georgia). Large; skin white, with red cheek; flesh white, firm, and of excellent flavor. Excellent shipper. July 5-20.
Brackett. A perfect freestone; large to very large; color orange-yellow, with carmine cheek; flesh deep yellow, juicy, highly flavored, of best quality. August 1-15.
Carman. Large; creamy white, with deep blush; flesh tender and of fine flavor. June 20 to July 1.
PEACHES—Freestone (Cont’d)

Elberta. Large; yellow, with red cheeks; juicy and of good flavor; flesh yellow. An excellent shipping variety. Mid-July.

J. H. Hale. A large, smooth peach without fuzz. Deep red; flesh yellow; fine quality. Middle to last of July.

Hiley (Early Belle). Large; white with red cheek; flesh white. Prolific bearer. The best shipper of its season. June 25 to July 5.

Mayflower (Neva-Myss; Early Wonder). Fruit small to medium; entirely covered with red. Blooms late; very hardy. May 15 to June 1.

Southland. A new introduction, especially adapted to Georgia and South Carolina. Yellow; firm; high quality. Ripens June 25 to July 5.

PEACHES—Clingstone

Chinese Cling. Very large; creamy white, mottled carmine; flesh, fine-grained. July 20 to August 1.

Indian Cling. The old reliable. Fruit medium to large; skin dark, mottled blood purple; juice, streaked with red. Last of July to mid-August.

DEPENDABLE PEARS

Pears are most successfully grown in well-fertilized, heavy clay or clayey-loam. If grown in sandy soil, coarse manure or litter should be worked into the soil. Mulching is of great benefit, and the orchard should be kept cultivated at all times.

Plant Standard trees 20 to 25 feet apart. Each 10

Standard, 2-yr., 4 to 6 ft..........................$1.60 $15.00

Garber. Reminisces the Kieffer in size, appearance and quality, but matures here in August, between the Le Conte and Kieffer. A thrifty grower and valuable variety.

Kieffer. Fruit large to very large; skin yellow, with a light vermillion cheek; flesh brittle, very juicy, musky aroma. Begins to bear when four years old. September, October.

Le Conte (Chinese Pear). Fruit large; pale yellow; quality variable, but if allowed to mature slowly in a cool dark room, improves remarkably. July 20 to end of August. Trees begin to bear when five years old.

Orient. New. One of the best for the South. Fruit 3½" x 3½"; uniform in size, skin thick, lemon-yellow mottled with russet dots. Flesh creamy-white; juicy; sweet; subacid. Fine for canning. Vigorous and spreading growth. Said to be blight-resistant.

JAPAN PERSIMMONS

The Japan Persimmon is thoroughly at home in the Cotton Belt. If the fruit is harvested before it is touched by frost, and house-ripened, the quality becomes greatly improved. Some varieties have dark flesh, which is edible while the fruit is still hard, but the light-fleshed varieties must be thoroughly matured before they can be eaten, as they are very astringent until fully ripened. The fruit of nearly every variety begins to color when half grown, but should be allowed to hang upon the trees until just before frost is expected, or in the case of early-ripening varieties, when fully matured. Many of the late ripening varieties can be kept until February. Distance for planting, 15 to 25 feet apart each way.

Each

4 to 5 ft...........................................$1.75
3 to 5 ft.........................................1.50
2 to 3 ft.........................................1.25

Fuyugaki. Medium to large; deep red skin; light flesh, non-astringent; very sweet and may be used while still hard; seedless; good shipper and keeper. September and October. 3-4 ft.

Tane-Nashi. Large to very large; skin light yellow, changing to bright red; flesh yellow; seedless. Prolific, bearing quite young. Finest for home and commercial use. All sizes.

PLUMS

FOR SOUTHERN GARDENS

Each 10

4 to 5 ft...........................................$1.75 $16.50
3 to 4 ft.........................................1.50
2 to 3 ft.........................................1.25

Abundance (Yellow-fleshed Botan). Yellow, heavily washed purple-carmine; flesh firm, juicy, with apricot flavor. Clingstone. One of best early varieties. June 15 to July 5.

Burbank. Cherry-red, mottled yellow; flesh, flavor and quality are identical with Abundance. Period of maturity is from two to three weeks later, or middle to last of July.

Methley. Red-fleshed, red-skinned variety of very good quality. Sweeter than many plums. Ripens same time as Mayflower Peach.

PLUMS FOR SOUTHERN GARDENS (Cont'd)

Red Nagate (Red June). Skin purplish-red; flesh yellow, solid, somewhat coarse-grained, juicy, sub-acid, Damson flavor. Ripens a week before Abundance, and is the earliest large-fruited market variety.

Satsuma, or Blood Plum (Yonemono). Large, dark purplish-red. Flesh firm, juicy, dark red or blood-color, well-flavored, firm. Unsurpassed for canning. Mid-July.

Wickson. Fruit large, waxy white when half-grown, then changes to pink and to dark crimson-purple; flesh firm, yellow, juicy, sub-acid and highly flavored; pit small, clingstone. July 10 to 25.

POMEGRANATES

Each
2 to 3 ft. ................................................. $1.00

Sweet. Fruit large, brilliantly colored. Wonderful. Large, highly colored fruit, fine sweet pulp. Late.

BLACKBERRIES

Blackberries do their best in a strong loam. Fertilizers containing a good proportion of potash are the most desirable. To prevent rust, spray with copper-sulphate solution during fall and winter, and with Bordeaux Mixture (4-6-50) during spring and summer. The rows should be 6 to 8 ft. apart and the plants from 3 to 4 ft. in the row. Apply fertilizer during the late winter and give shallow and constant cultivation.

Eldorado. The large berries, borne in big clusters. Very sweet—no core. A heavy bearer.

Himalaya. Strong grower; very prolific. Should be grown on trellis.

BOYSENBERRY

Very large fruit with delicious flavor. Most prolific. Highest quality.

DEWBERRIES

Use short, stout stakes, driven at the end of each row of canes, with a cross-piece of 18” in. long nailed to each stake, 2½ to 3 feet from the ground. On the top, near each end of these cross-pieces, drive a stout nail, slanting toward the stake, upon which to catch a wire. Two lines of No. 14 galvanized wire, one on each side of the row, are fastened to one end of the stake and run on the ground between the rows to the other end stake. Draw wires as taut as possible, and securely fasten to the other end of the row. The wires are now raised and caught on the nails, thus holding all the canes closely together in the row. Dewberries should be mulched to keep the berries from the ground.

Austin’s Improved. Very large fruit. Vigorous grower; productive. The best variety for the South.

Lucretia. Low-growing. Hardy and very productive. Fruit sweet and luscious. Early.

RASPBERRIES

The lighter loams are best for the red sorts, and the heavy loams for the blackcaps. Cottonseed meal, pure ground bone, or fertilizers containing a good proportion of potash are best and should be liberally applied during the winter and early spring. Keep the plants in vigorous condition; mulch heavily with straw.

Cumberland (Black). Very large, firm berries of high quality. The best mid-season market variety.

Cuthbert (Queen of the Market). The best and most reliable of the red-fruited varieties. Fruit large, red, and of excellent quality; ripens middle of May. Prolific bearer. Fine shipper.

Latham. Large; red; luscious. Very productive. Splendid shipping qualities.

Ranere (St. Regis). Berries large, crimson; flesh rich. Prolific. Produces its fruit early and through a long period. We consider it one of the best raspberries.

STRAWBERRIES

Klondyke. Large, firm berries. A profitable variety. Early bearing on vigorous, upright growth.

ABOVE TWO VARIETIES $2.00 per 100.

YOUNGBERRIES

Youngberries. Fruit larger than dewberries, with a decided flavor of raspberry. Splendid for home use, but will not ship well.

PRICE ON ALL ABOVE BERRY PLANTS (except Strawberries) 15c each; $1.25 per 10; $10.00 per 100.
GRAPES

In transplanting grapes, leave main branch and cut back to two or three eyes. The usual distance for planting grapes is 10 by 10 feet. Prune annually.

PRICES—EXCEPT WHERE OTHERWISE NOTED:

Strong plants, 50c each; $3.00 for 10.

Brighton. Bunches medium size; berries large, reddish; skin thin. Excellent for table or market.

Concord. Bunch and berry, very large, blue-black; skin thin, cracks easily; flesh sweet, pulpy, tender. Most reliable and profitable.

Delaware. Berry medium, light red. Moderate grower but vine healthy, prolific. For table and white wine.

Fredonia. New, early, blue. Thick skin; sweet. Ripens about two weeks earlier than Concord.

Golden Muscat. Delicious, sweet, aromatic, with muscat-like flavor. Large berries and bunches. $1.00 each.

Ives. Bunch large; berry large, blue; skin thick; flesh pulpy, sweet and musky. Prolific.

Lindley. Berry medium to large; color red; sweet; aromatic flavor. Mid-season.

Moore Early. Berry large, black; medium quality. Early and desirable.

Niagara. Greenish yellow; flesh pulpy, sweet. Vigorous and prolific.

BULLACE, OR MUSCADINE GRAPES

This type is purely Southern, and is of no value for the northern or western states. Vine is free from all diseases. The fruit never decays before maturity. Cultivation is reduced to the simplest form—plant from 20 to 30 ft. in row; train on an arbor or trellis.

Strong, 3-yr., heavy. Strong, 2-yr., heavy

Each 10

$ .75 $ 6.50

Flowers. Black and sweet, vinous flavor. Matures from end of September to end of October, or four to six weeks later than Scuppernong.

Hunt. Vigorous grower; good bearer; large black fruit; good flavor, ripening in late August, 2-yr. only.

James. Berries large, blue-black; skin thin; pulp tough, sweet and juicy; quality good. Ripens after Scuppernong.

Male Muscadine. Plant one of these with every ten vines to make a heavier crop. 2-yr. only.

Scuppernong. Berries large; color brown; skin thick; flesh pulpy, flavor sweet. Vine is free from all diseases and insect depre- dations. Prolific. 2-yr. only.

Spalding. Very prolific. Fruit black, skin medium to thin, pulp small. Ripens 2 weeks later than Hunt.

Stuckey. Reddish-bronze, medium to large, sweet, excellent. Ripens 10 days after Scuppernong.

Thomas. Violet, quite transparent; pulp tender, sweet. Middle to last of August.

NUTS

ALMONDS

Almonds can be successfully grown in some sections of the South; but, owing to their early blooming periods, the fruit is sometimes killed by late spring frosts. Requires the same cultivation as the peach.

I. X. L. A desirable California variety. Sturdy, upright grower; not large; soft shell; heavy bearer.

Each

3-4 ft. $ 1.25
2-3 ft. 1.00

PISTACHIA

Pistache. This nut was imported from Mediterranean countries. Does well in dry climates of south and southwest.

Each

18 to 24 in. $1.50

WALNUTS

Japanese. Particularly successful in the Southern states. Large, spreading top. Useful as well as an ornamental tree. At three years of age the tree commences to bear. Shells moderately thick; kernels very sweet.

Each

2 to 3 ft. $1.00
2 to 3 ft. $ 8.50

Wilson Wonder (English Walnut). The old-fashioned, well-known black walnut.

Each

3 to 4 ft. $ 7.50
2 to 3 ft. .60

WE ADVISE THAT YOU ORDER EARLY ORDER TODAY!

Our shipping season usually begins about the 1st of November and extends through April 15th.

FRUITLAND NURSERIES—The South's Oldest Nursery—Augusta, Ga.
Plant pecans 50 to 60 feet apart, according to soil, which should be good.

A sour soil will kill or injure the trees and never be satisfactory. To get crops, you must cultivate, fertilize, and properly prune the trees. Our trees, if properly cared for, should bear in five years, bear paying crops at eight years, and should produce 16-20 pounds of nuts per tree at 10 years.

Planting and Cultivating. After pecans reach maturity in fall, transplant any time until March. Keep roots covered with moss or wet sacks at all times before planting—they must not dry out. Dig hole for tree before exposing roots. Hole should be 2' feet wide and deep enough to set tree a trifle lower than it stood in nursery.

Fill hole half full around roots with well-pulverized top-soil enriched with either the proper amount of well-rotted stable manure, bonemeal, or high-grade fertilizer, thoroughly mixed with the soil.

Pack earth firmly as the hole is filled, but leave 2 inches of loose soil on top. When soil is very dry, pour water in the hole when partly filled. Be careful not to break eyes of trees when handling. Keep trees cultivated and properly pruned. Between the rows you may plant cover-crop for several years, but never small grain. When trees go into bearing, plant and turn under a cover-crop of soy beans, vetch or clover.

Extra Large: Schley and Stuart: Each 8 to 10 ft. ...........................................$6.50 6 to 8 ft. ........................................... 5.50

Farley. A new variety. Vigorous; prolific; disease-resistant. Nut medium sized. A good cracker. 2-3 ft. and 3-4 ft. only.

Mahan. Extra-large nut; thin shell; delicious meat. Very desirable. Each 3 to 4 ft. ...........................................$4.00

Moneymaker. Early and prolific. Vigorous and a good profitable commercial variety. 3-4 ft. only.

Schley. Medium to large. Shell thin; plump, rich flavor. Good grower. Has few equals as a market nut.

Stuart. Nut large to very large. Shell of medium thickness, and of very good cracking quality. Flavor rich and sweet. A good grower; heavy bearer. An excellent variety.

Prices, except where noted: Each 10

4 to 5 ft. .......................................$2.25 $21.50
3 to 4 ft. ....................................... 2.00 19.00

PLEASE NOTE:
Our Nursery is not open for business on Sundays. Our week-day business day begins at 8 A.M.—closing at 4:30 P.M. Saturdays we close at 2:30 P.M.
**FLOWERING SHRUBS**

**FORSYTHIA**—*Golden Bell*

Bright yellow, bell-shaped flowers appear in the spring before the leaves come out. The upright forms make excellent hedges, and good fillers for massed shrubs.

**Forsythia intermedia** (Border Forsythia). 6 to 8 ft. A tall variety with slender arching branches. Flowers golden yellow; blooms in March. 2-3 ft., 3-4 ft.

**F. intermedia** spectabilis. 6 to 8 ft. Most beautiful of the Golden Bells. Profusion of large bright yellow flowers in March. 18-24 in., 2-3 ft.

**F. suspensa** (Weeping Forsythia). 6 to 8 ft. A graceful variety with long, slender drooping branches. Flowers yellow, produced in great profusion in March. 18-24 in., 2-3 ft.

**F. suspensa** fortunei (Fortune Forsythia). 6 to 8 ft. Similar to *F. suspensa*. Flowers golden yellow. A desirable variety. Blooms in March.

**F. viridissima** (Greenslime Forsythia). 6 to 8 ft. Flowers golden yellow, produced in great profusion last of February or early March.

---

Buddleia *davidi magnifica*

Althea *frutex*. See Hibiscus *syriacus*.

**BUDDLEIA**—*Butterfly Bush*

Buddleia *charming*. Lovely lavender-pink blooms in late summer.

B. *davidi magnifica* (Oxeye Butterfly Bush). 8 ft. Flowers a deep violet. Plant is a tall grower, and blooms from June until frost.

B. *dubonnet*. Large wine-colored spikes of flowers all summer.

**CALYCANTHUS**—*Sweet Shrub*

Calycanthus *floridus* (Common or Strawberry Shrub). 6 ft. Flowers double, chocolate-colored, bloom very fragrant, in early April. Grows well in shady locations.

GORDONIA
Gordonia alatamaha (Franklinia alatamaha). 15 to 20 ft. Very rare. Blooms from early August until frost. Blossoms very large; snowy-white with golden yellow stamens; breathes forth a delicate, balmy fragrance. Very desirable. Each 3 to 4 ft. $4.00
2 to 3 ft. 3.00

HALESIA—Silver Bell
Halesia carolina. 15-18 ft. Masses of snow-white, bell-shaped flowers. Blooms same time as Dogwood. Each 2 to 3 ft. $1.00

HAMAMELIS—Witch-Hazel
Hamamelis virginiana. 25 ft. Shrub or small tree. Bright yellow blossoms in late summer. Does well in damp location. Each 3 to 4 ft. $1.00

HIBISCUS—Althea
Hibiscus syriacus (Althea frutex; Shrub Althea). 10 ft. The single, semi-double, and double flowers are produced from May until September. When planted in masses of contrasting colors, the effect is most pleasing. When ordering, state color and type desired.
Anemoneflorus—Double rose. 2-3 ft., 3-4 ft.
Jeanne d'Arc—Double white. 2-3 ft.
Lucy—Double lavender pink. All sizes.
Pulcherrima—Double white, suffused pink. 2-3 ft.
Rubus—Single red. 2-3 ft.

HONEYYSUCKLE. See Lonicera.

HYDRANGEA
Hydrangea opuloides. 12 ft. White, blue and pink.

SOIL CONDITIONS CONTROL COLOR OF BLOOM—therefore we cannot guarantee them to bloom same color with you that they do here.

H. paniculata grandiflora (Pegee Hydrangea). 8 to 10 ft. Produces, in July, immense panicles of pure white flowers. Very valuable shrub. Should be grown in rich ground and cut back severely during winter. 18-24 in. only. Each 10
3 to 4 ft. $1.75 $17.00
2 to 3 ft. 1.35 13.00
18 to 24 in. 1.00 9.00
12 to 18 in. .75 7.00

HYPERICUM—Gold Flower
Hypericum moserianum. 2 ft. Dwarf shrub, almost evergreen in this section. Flowers large, single, bright golden yellow, 2 in. across. Blooms from May throughout the entire summer. Most effective when planted in masses. Each 10
18 to 24 in. $ .75 $6.50
12 to 18 in. .60 5.00

JASMINUM—Jasmine
Jasminum beesianum. 3 ft. Leaves small; flowers pink or deep rose, very fragrant. Summer bloomer.
J. floridum (Flowering Jasmine). 3 ft. Golden yellow flowers, half an inch in diameter, produced during summer. Hardy as far north as Washington. Flexuous branches and very pretty foliage.
J. primulinum (Primrose Jasmine). 10 ft. Evergreen in this section, but farther north loses its foliage in winter. An improvement upon J. nudiflorum.
Above Jasminums: Each 10
2 to 3 ft. $ .85 $7.50
18 to 24 in. .75 6.50

KERRIA
Kerria japonica f. pl. 6-8 ft. A graceful shrub bearing double pompon-like yellow flowers in May and June. Each 3 to 4 ft. $1.00
2 to 3 ft. .75

KOLKWITZIA—Beauty Bush
Kolkwitzia amabilis. 6 ft. A native to China. It is hardy in the New England States. Has general resemblance to weigela and honeysuckle, the beautiful trumpet-shaped flowers appearing in abundance in April. Flowers pale pink, with orange veins in throat; buds darker. Each 10
18 to 24 in. $ .75 $6.50

LONICERA—Honeysuckle
3 to 4 ft. $1.00 $9.00
2 to 3 ft. .75 6.50

Climbing Honeysuckle—See pages 47-48.

FRUITLAND NURSERY—The South's Oldest Nursery—Augusta, Ga.
Each 10
2 to 3 ft. $ .75 $ 7.00
18 to 24 in. .60 5.50

SALIX—Pussy Willow
Salix discolor. 8 ft. The well-known Pussy Willow, with silky catkins which precede the leaves in early spring.
Each 10
2 to 3 ft. $ .60 $ 5.00
18 to 24 in. .50 4.00

SALVIA—Autumn Sage
S. greggi alba. Same as the above except with white flowers.
Each 10
12 to 18 in. $ .60 $ 5.00

SPRING-BLOOMING SPIRAEAS
To keep shapely plants which will give a maximum of blooms, they should be pruned severely, and old wood removed directly after flowering every year.
Spiraea prunifolia plena (Double Bridal Wreath). 4 to 8 ft. Early-blooming variety, with small, double white flowers. Commences to bloom in early March. 18-24 in., 2-3 ft.
SPRING-BLOOMING SPIRAEAS—(Cont'd)

S. reevesiana (Reeves Single). 4 to 8 ft. From China. Produces large clusters of single white flowers, covering the entire bush. 2-3 ft., 3-4 ft.

S. reevesiana lanceata (Reeves Double). 4 to 8 ft. Large, round clusters of double white flowers. Blooms latter part of March and continues for several weeks. 2-3 ft.

S. vanhouttei (Vanhoutte Spiraea). A graceful shrub growing 6 to 8 ft. in height. Produces a profusion of single white flowers during the latter part of March. One of the most popular Spiraeas. 2-3 ft., 3-4 ft.

Above four Spiraeas: Each 10
3 to 4 ft., well branched $ .75 $6.50
2 to 3 ft. .................. .60 5.00
18 to 24 in. .................. .50 4.00

S. thunbergi (Thunberg Spiraea). 3 to 6 ft. Beautiful dwarf variety with many slender branches forming a dense bush. Commences to bloom first of March and lasts for some time. Most desirable for a low hedge and for massing.

Each 10
24 to 30 in. .................. $ .90 $8.00
18 to 24 in. .................. .75 6.50
12 to 18 in. .................. .60 5.50

PERPETUAL-BLOOMING SPIRAEAS

Spiraea Anthony Waterer. 3 to 5 ft. Flowers rose colored. If blooms are cut off as soon as they begin to fade, the plant will bloom the entire season. Makes a low-growing hedge.

S. froebeii (Froebel Spiraea). 3 to 5 ft. Rosy colored flowers, produced last of April in large, flat heads. The young foliage is tinted dark red.

Above three Spiraeas: Each 10
18 to 24 in. .................. $ .60 $5.50
12 to 18 in. .................. .50 4.00

S. billiardii (Billiard Spiraea). 4 to 6 ft. A tall-growing variety. Flowers bright pink. Commences to bloom in May and lasts throughout the summer. Very showy.

Each 10
3 to 4 ft. .................. $ .75 $6.50
2 to 3 ft. .................. .60 5.50

SYMPHORICARPOS—Snowberry

(St. Peter’s Wort)

Symphoricarpos racemosus (Common Snowberry). 4 to 6 ft. Slender, drooping branches. Flowers white, followed by clusters of white berries which remain upon the plant for months.

S. vulgaris (Coralberry). 4 ft. Native shrub. Purplish red berries, produced in great profusion, remain upon the plant all winter, making it especially desirable for landscape planting.

All Symphoricarpos: Each 10
2 to 3 ft. .................. $ .75 $6.50
18 to 24 in. .................. .60 5.00
12 to 18 in. .................. .50 4.00

TAMARIX—Tamarisk

Tamarix gallica (French Tamarisk). 30 ft. Foliage light, glaucous green; flowers pink in summer.

Each 10
4 to 5 ft. .................. $1.00 $8.50
3 to 4 ft. .................. .85 7.50
2 to 3 ft. .................. .75 6.50

VIBURNUM—Snowball

Viburnum opulus sterile (Common Snowball). 8 ft. Large, globular cluster of white flowers in early April. An old favorite. 18-24 in. only.

Viburnum tomentosum plenum (Japanese Snowball). 8 ft. Upright, bushy growth; produces heads of white flowers in great profusion. Far superior to the old Snowball. Blooms early in April; lasts several weeks.

Above two Viburnums: Each 10
2 to 3 ft., branched ......... $1.00
18 to 24 in. .................. .75

Viburnum tomentosum plenum

WEIGELA—Diervilla

Weigela hybrida Eva Rathke. 6 ft. Flowers deep carmine-red. Profuse bloomer and continues in bloom for a long time.

W. hybrida Mt. Blanc. 6 ft. Flowers at first are white, later turning to light pink.

W. rosea (Pink Weigela). 6 ft. Flowers are light pink. Compact grower; free bloomer.

All Weigelas: Each 10
3 to 4 ft. .................. $1.00 $9.50
2 to 3 ft. .................. .90 8.50
ALEURITES—Tung-oil Tree

Aleurites fordii. 30 ft. Medium-sized tree. The rather large, apricot white flowers, which appear in large numbers in April; broad, handsome, green leaves. Its apple-like fruits contain several large nut-like seeds which yield the valuable tung-oil used exclusively in paints and varnishes.

Each 3 to 4 ft. ........................................... $ .75
2 to 3 ft. ........................................... .50

AMYGDALUS—Flowering Peach

During March the Flowering Peaches are covered with a mass of beautifully formed and highly colored double flowers. Perfectly hardy, thriving in any soil in which other peaches grow.

CANNOT BE TRANSPLANTED SUCCESSFULLY AFTER BLOSSOMS FORM, UNLESS PRUNED HEAVILY.

Amygdalus persica albo-plena. 12 ft. White; double.
A. persica carnea flore-plena. 12 ft. Pink; double.
A. persica rubro-plena. 12 ft. Red; double.
A. persica variegated. 12 ft. Blossoms variegated; double.

All Amygdalus: Each 10
4 to 5 ft. ........................................... $2.50 $17.00
3 to 4 ft. ........................................... 1.50 14.00
2 to 3 ft. ........................................... .90 9.00

CERCI S (Flowering Cherry). See Prunus.

CERCIS—American Redbud

Cercis canadensis. 30 ft. A fast-growing, round-headed tree with large, leathery, heart-shaped leaves. The last of March, before the foliage appears, the tree is covered with a profusion of delicate reddish purple flowers.

Each 10
4 to 5 ft. ........................................... $1.25 $11.50

C. canadensis alba. 30 ft. Same as Cercis canadensis, except flowers are white.

Each
2 to 3 ft. ........................................... $2.25

COR NUS—Dogwood

Cornus florida (Flowering Dogwood). 40 ft.
The native, large, white-flowering Dogwood. A most effective plant for the lawn.

Each 10
4 to 5 ft. ........................................... $2.50 $23.50
3 to 4 ft. ........................................... 2.00 19.00
2 to 3 ft. ........................................... 1.50 14.00

Each 10
3 to 4 ft. ........................................... $3.50
2 to 3 ft. ........................................... 2.50

C. florida rubra (Red-flowering Dogwood). 25 ft. Similar to the White-flowering Dogwood, but the flowers are of a deep rose color. Early in the season it produces large quantities of blooms, making it a most effective tree for single specimens on the lawn, and for mass planting with a background of tall evergreens. It is considered one of our outstanding flowering trees.

Each
4 to 5 ft. ........................................... $4.75
3 to 4 ft. ........................................... 3.50
2 to 3 ft. ........................................... 2.50
LAGERSTROEIA—Crape Myrtle

Crape Myrtles will sometimes remain dormant, not putting out leaves for a year. They should be cut back, kept watered and the ground around them loosened lightly.

If Crape Myrtles are severely pruned and well fertilized in February, the blossoms during that season will be much more beautiful.

Lagerstroemia indica (Crape Myrtle). 20 ft. A popular and free flowering shrub, or small tree, which produces blooms in great abundance throughout the summer. The flowers are beautifully fringed and are borne in large clumps. Commences to bloom in June. All plants will be pruned before shipping. First year blooms not always true.

Crimson. 2-3 ft. to 5-6 ft. Lavender. 3-4 ft. to 5-6 ft. Pink. 4-6 ft. White. 2-3 ft.

MAGNOLIA

Magnolia liliflora (Chinese Purple Magnolia). 25 ft. Makes a small tree of compact growth. Large purple and white flowers are produced in great profusion the latter part of March and scattering blooms the entire summer.

M. liliflora nigra (Purplish Red Magnolia). 25 ft. Flowers several shades darker than M. liliflora. A free bloomer, commencing in March and blooming spasmodically during the entire summer. 18-24 in. only.

EVERGREEN MAGNOLIAS. See page 35.

Lagerstroemia (Crape Myrtle)

MALUS—Flowering Crab-Apple

The Flowering Crab can be planted as specimens on the lawn or in masses, either in the border or open lawn.

Malus ioensis bechtlei (Bechtle Double-flowering Crab). 8 ft. The flowers of this sweet scented Crab resemble small pink roses. Very hardy and good for individual planting.

OAK. See Quercus.

POPULUS—Poplar

Populus nigra italica (Lombardy Poplar). 40 to 50 ft. A tall, pyramidal, compact and rapid-growing tree. Very desirable where a formal effect is wanted.

P. simoni fastigiata (Simon Poplar). 40 to 50 ft. A remarkable variety of small-leaf Chinese Poplar. Of pyramidal habit, resembling the Lombardy, but making a more pleasing impression. A rapid grower.

FRUITLAND NURSERIES—The South’s Oldest Nursery—Augusta, Ga.
PRUNUS—Flowering Cherry and Plum

There is no group of exotic trees as handsome as the flowering cherries and plums.

Prunus cerasifera pissardi (Purple-leaf Plum). 10 to 20 ft. Most valuable of all purple-leaved trees. Retains its deep color throughout the warmest weather and its leaves last until midwinter. We cannot endorse it too highly. Each 10
4 to 6 ft. ..............................................$1.75  $16.50

P. kwanzan (Flowering Cherry). 15 ft. Beautiful shade of pink flowers, which literally cover tree in early spring. Very desirable. Each 4 to 5 ft. ..............................................$2.75

P. pendula rosea (Japanese Weeping Cherry). 10 to 20 ft. In early April the pendulous branches are covered with rose-pink flowers in clusters, and the tree is literally a mass of blooms. The flowers appear before the leaves begin to unfold. A most desirable variety. 2-year heads, 4 to 6 ft., $5.00 each. Spring delivery.

QUERCUS—Oak

Oaks must be severely pruned when transplanted, otherwise there is danger of the tree dying.

Quercus acutissima. 50 ft. Leaves oblong, to 7 in long, with bristle-like teeth, shining above; cup with spreading scales, 2-3 length of nut. 6-8 ft., 8-10 ft.

Q. alba. (White Oak). 50-100 ft. A beautiful variety with spreading branches, broad, open head, and light gray bark. Foliage assumes a deep purple tint in fall. Desirable for street and lawn planting. 4-5 ft. to 6-8 ft.

Q. nigra (Water Oak). 50 to 80 ft. Too well-known to need description. All sizes.

Q. palustris (Pin Oak). 50 to 80 ft. Tree shapely and symmetrical. Leaves are a beautiful shade of green, in autumn turning to a brilliant scarlet. One of the most desirable trees for street and avenue planting. 5-6 ft., 6-8 ft.

Q. phellos (Willow Oak). 50-80 ft. A graceful variety with narrow lanceolate leaves, resembling those of the willow. Well-known native tree. 5-6 ft., 6-8 ft.

All Quercus Each 10
8 to 10 ft. ..............................................$5.00  $45.00
6 to 8 ft. ..............................................2.50  22.50
5 to 6 ft. ..............................................2.00  
4 to 5 ft. ..............................................1.50  

EVERGREEN OAKS—See page 37.

TAXODIUM

Taxodium distichum (Bald Cypress). You who have bogs and lake shores to be beautified—this tree offers you stateliness, trimness and a pleasing arrangement of limb and foliage.

Each 8 to 10 ft. ..............................................$5.00
6 to 8 ft. ..............................................3.50
5 to 6 ft. ..............................................3.00

TILIA—Linden

Tilia americana. 120 ft. Leaves broad-ovate, to 6 in. or more long. Foliage turns yellow in fall.

Each 4 to 5 ft. ..............................................$2.00

ULMUS—Elm

Each 8 to 10 ft. ..............................................$3.00
6 to 8 ft. ..............................................2.00

UMBRELLA CHINA. See Melia.

Chinese Magnolia (See page 12)

My first order came yesterday and I have never seen nicer nursery stock—nor better packing. I am most pleased. I hope that you will be able to send this shipment (the enclosed order) very soon. Part of it is to be used in the greenhouse and I am anxious to have it all in shape well before Christmas.

J.M.H., Lookout Mtn., Tenn.

FRUITLAND NURSERIES—The South’s Oldest Nursery—Augusta, Ga.
VITEX—Chaste or Hemp Tree

Vitex agnus castus (Lilac Chaste Tree). 10 ft. Large shrub, growing tree-like in the South. Handsome, aromatic foliage. Lilac-blue flowers on long spikes freely produced in late June, lasting about a month.

V. agnus castus alba (white Chaste Tree). A Chinese shrub of graceful habit, with coarsely serrate foliage and terminal spikes of pale blue flowers.

All Vitex: Each 10
4 to 5 ft. $1.75
3 to 4 ft. 1.25 $11.00
2 to 3 ft. 1.00 9.00

WILLOW. See Salix.

BROADLEAVED EVERGREENS

ALL EVERGREENS ARE DUG B&B, UNLESS OTHERWISE DESIGNATED

* The figure after each name denotes ultimate height of plant.

ABELIA

Abelia Edward Goucher. 6 to 8 ft. Similar to grandiflora, except that blooms are twice as large, and are lilac-pink when open.

Each 10
18 to 24 in. $1.00

A. grandiflora (Glossy Abelia). 6 to 8 ft. Pinkish white blossoms produced all summer. Fine for single specimens, for groups, or for a hedge. Hardy as far north as Philadelphia.

Each 10
18 to 24 in., bare roots $ .75 $6.50
12 to 18 in., bare roots .60 5.50

ACACIA—Opopanax

Acacia farnesiana (Sweet Acacia). 20 ft. A popular Southern plant, with thorny branches and very small leaflets. The fragrant flowers, which look like yellow balls, are produced freely in February and March. A popular Northern greenhouse plant, where it blooms freely all winter. Strong, potted plants. $1.50 each.

ARDISIA

Ardisia crenulata. Small plant suitable for conservatory or pot. Long wavy leaves; white flowers followed by an abundant crop of bright red berries.

5 in. pots, 15-18 in. $1.50 each

AUCUBA

Gives the best results if planted in a shaded situation, in a somewhat moist, though rich, well-drained soil. Aucubas are especially desirable for city gardens as they are seldom injured by smoke or noxious gases. These plants are also largely used for vases, urns and window boxes.

EXCELLENT FOR MOIST, SHADY TO DEEP SHADY LOCATIONS.

Aucuba japonica (Japanese Aucuba). 8 ft. A strong-growing variety with large, dark glossy leaves.

Each 10
12 to 18 in. $1.50 $12.50
8 to 12 in. 1.00 9.00

A. japonica variegata. Same as above, except that foliage is variegated green and yellow. Good for jardinières.

Each 10
12 to 18 in. $2.00
8 to 12 in. 1.50

A LIST OF EVERGREENS SUITABLE FOR VERY SHADY LOCATIONS

Aucubas Camellias Elaeagnus
Azaleas Cleyeras Ilex integra

See Page 23 for Camellia Show Dates

FRUITLAND NURSERIES—The South's Oldest Nursery—Augusta, Ga.
Pink and Salmon Colors

Croemina. Tall, early, soft pink. 12-15 in. to 18-24 in.

Elegans Superba. Sometimes called Pride of Mobile. Compact, late. Clusters of watermelon pink blooms on a stem. 8-12 in.

George Franch. Medium, early, deep pink. 8-12 in. to 18-24 in.

Harry Veitch. Slow-growing, late, brilliant rose with crinkled petals. 8-12 in. to 18-24 in.

Lawsal. Sometimes called Pride of Summerville. Tall salmon-pink. 8-12 in. to 2-3 ft. See cut, page 18.

Miltoni. Medium, late, clear pink with conspicuous dark blotch. 8-12 in., 2-3 ft.

Model de Marc. Medium late, clear pink. 8-12 in. to 2-3 ft.

Pride of Mobile. See Elegans Superba.

Pride of Summerville. See Lawsal.

Salmon Pink. Dwarf, very late, and hardy. 8-12 in. to 2-3 ft.

Triumph de Ladeberg. Late, dwarf, large salmon-pink blossoms. 8-12 in. to 18-24 in.

Viscomte de Nieuport. Spreading habit, mid-season, deep pink. 12-15 in. to 18-24 in.

Zekes Pride. Tall, thin, early, light pink. 8-12 in. to 18-24 in.

RED—Including Orange-Red and Deep Pinks

Brilliant. Tall, late, carmine. 8-12 in. to 15-18 in.

Coccinea Major. Brilliant orange-red. 8-12 in. to 18-24 in.

Emperor. Dwarf, late, orange-red. Ruffled petals. 18-24 in., 24-30 in.

Praestantissima. Tall, mid-season, deep pink. 8-12 in. to 18-24 in.

Pride of Dorking. Tall, late, cerise red. 8-12 in., 12-15 in.

Prince of Orange. Medium, late, orange-scarlet. 8-12 in. to 15-18 in.

LAVENDER

Early Lavender. Lavender, tall-growing. 18-24 in. to 3-4 ft.

Formosa. Tall, mid-season, lilac. 8-12 in., 12-15 in.

Phoenicea. Medium, late, lavender. 12-15 in. to 3-4 ft.

Violacea Rubra. Tall, wine-red, late. 8-12 in. to 18-24 in.

Vittata Purple. Tall, early, lavender, hardy. 12-15 in. to 3-4 ft.

VARIEGATED

Alba Punctata. Dwarf, late, white with few pink markings. 8-12 in. to 18-24 in.

Ivoryana. Dwarf, late, variable, pink and white, sometimes solid. 8-12 in. to 15-18 in.

Mme. Dominique Vervaeve. Color variable. Sometimes clear violet throughout; sometimes magenta-pink with white border; other times blazed with violet stripe. In all cases throat markings deep dubonnet. All sizes. See cut, page 17.

Vittata. Tall, very early, one of the hardiest and best. Colors resemble peppermint candy. 12-15 in. to 2-3 ft.

WHITE

Alba. Tall, early, and hardy. 12-15 in. to 18-24 in.

Alba Maculata. Large white flowers. 12-15 in., 2-3 ft.

Fielders White. Tall, early flowering, pure white, hardy. 8-12 in., 12-15 in.

Flag of Truce. Medium, mid-season, double white waved petals. 8-12 in., 12-15 in.

Perfection de Rentz. Spreading, late, white. 12-15 in., 15-18 in.

Supreme. Dwarf, late, white, sometimes slight pink veins. 18-24 in.

SAME PRICES AS KAEMPFERI

AZALEA KAEMPFERI—Tall, Hardy

Azalea kaempferi (Japanese Azalea). Beautiful variety introduced by Prof. Sargent. Perfectly hardy and a most desirable addition to our collection of evergreen Azaleas. We can furnish plants in shades of pink. Large flowers. 12-15 in. to 3-4 ft.

AZALEA KAEMPFERI HYBRIDS

We have been trying to get a hardy type of tall growing Azaleas, combining the colors of the Indica type with the hardiness of the Kaempferi type. In this we seem to have succeeded. These hybrids came through the severe winter 1935-36 when the temperature dropped to 7 degrees F. above zero, with only slight injury to one-year-old plants—none to older plants. Mixed colors. All sizes.

All above Azaleas: (Indica and Kaempferi) Except where noted. Each 10

3 to 4 ft. ........................................3.50 $30.00

2 to 3 ft. ........................................2.25 20.00

8 to 12 in. ...................................... .60 5.50

FRUITLAND NURSERIES—The South's Oldest Nursery—Augusta, Ga.
This type is very hardy, surviving a temperature as low as 5 degrees F. above zero. Flowers small, plant a compact, dwarf grower. Height, 3 ft.

Amoena. Small, bronzy foliage; hose-in-hose, claret flowers. 8-12 in. to 18-24 in.

Apple Blossom. Midseason, pale pink, single. 6-8 in.

Bridesmaid. Glowing salmon flowers produced in large clusters; very prominent stamens. Small, glossy green foliage. 8-10 in. to 18-24 in.

Christmas Cheer. Hose-in-hose, crimson. Midseason. 6-8 in. to 10-12 in.

Daybreak. Pure light pink flowers in dense clusters; very free-flowering. Beautiful green foliage. 10-12 in. to 24-30 in.

Flame (Fire Fly). Orange red, with coppery suffusion; beautiful, medium-sized flowers. Glossy foliage. 8-10 in. to 3-4 ft.

Hin-degiri. Single; red. Late. 6-8 in. to 12-15 in. See cut, page 18.

Hinomayo. Single; pink; larger flowers than the others. Midseason. All sizes. See cut, page 18.

Mauve Beauty. Medium size dainty flowers produced freely. Beautiful mauve color. 8-10 in. to 18-24 in.

Pink Jewel. Bright pink flowers. Very showy and desirable. 5-10 in. to 15-24 in.

Pink Pearl. Hose-in-hose; delicate apple-blossom pink. Late. 8-10 in. to 18-24 in. See cut, page 18.

Salmon Beauty. 10-12 in.

Salmon Queen. Hose-in-hose. 10-12 in. to 2-3 ft.

Snow (Swan). Hose-in-hose; white. Midseason. 6-8 in. to 10-12 in.

AZALEA GLENN DALE HYBRIDS

Originated by B. Y. Morrison, Glenn Dale, Md.

These are some new evergreen Azaleas put out by the United States Department of Agriculture. Some are medium growers—others tall growers, and we have indicated after each variety the type growth, if we know it.

Anchorite. Late, medium height, rather spreading. Flowers 2 inches across. Rose colored with undertone of orange. 8-10 in. to 18-24 in.

Buccaneer. Midseason, medium height, semi-spreading, brilliant red, with darker blotch. 12-15 in. to 18-24 in.

Gayety. Late, medium height, rather spreading, bright clear pink, with rather heavy blotch of deep rose-red. 12-15 in. to 18-24 inches.

Glamour. Late, medium height, spreading. Very brilliant rose-red. 8-10 in. to 18-24 in.

Joya. Late, medium height, large-flowered rose-pink. 12-15 in.

Minuet. Early, tall, erect. White flowers with flakes of magenta. 2-3 ft.

Revery. Late, medium height, semi-spreading; pale rose color with no blotches. 18-24 in.

MACRANTHA HYBRIDS

Bunkwa. Giant-sized, peach or salmon color with pure white center. Late bloomer. Compact grower. Good. 6-8 in., 8-10 in.
Eiten. Large, single, magenta. Late. Dwarf. 10-12 in.
Fuji-no-kashi. Violet-purple on white ground. Sometimes amount of purple will vary. Petals are fringed and large. Very rare. 6-8 in. to 10-12 in.
Gunhi. Light cherry-pink with salmon-red variegations. Large flower-fringed petals. 6-8 in. to 10-12 in.
Gunrei. Large, flesh-pink, sometimes striped rose. 6-8 in., 8-10 in.
Gyokushin. Snow white with reddish-purple or rose variegation, and white margins. Large, fringed petals. Will sometimes produce solid rose flower. 12-15 in., 15-18 in.
Hou-raku. Large, variable white and pink. Sometimes solid salmon-rose. 8-10 in. to 15-18 in.
Kelsatsu. Salmon-pink with light throat. Variegated foliage. 10-12 in.
Kow-Koku. Very large, snow-white with some salmon or crimson variegation. 8-10 in., 10-12 in.
Mai-Hime. Always very attractive, even though colors vary from light purple or rose to reddish-purple on milky-white ground. Single flower. Very hardy. 8-10 in. to 18-24 in.
Selgetsu. Late, tall, white, edged pink. Very lovely. Color may vary to lilac-pink and white. 8-10 in. to 15-18 in. See cut, page 17.

MACRANTHA VARIETIES

Satsuki. (L.). A new evergreen variety of broad, spreading growth. Flowers large and double. The color varies from brick-dust red to rose. 18-24 in., 24-30 in.
No. 1. Large, single pink. Large blossom.

We have found this variety very hardy and desirable. 8-12 in., 18-24 in.
No. 2. Single. Mauve. Late 6-8 in. to 12-15 inches.

HELLER HYBRIDS

Hybrids. Assorted colors. Evergreen. Similar in growth to Indian Azaleas and period of blooming is about same. 6-8 in. to 12-15 in., 18-24 in., 2-3 ft.

PERICAT

Hybrids. Medium tall grower; medium to large flowers. Mixed colors. 18-24 in.
Hybrid Double Pink. 12-15 in., 15-18 in.
Hybrid Orange. 8-10 in., 10-12 in.
Hybrid Single Salmon Pink. 18-24 in., 24-30 in.
Hybrid Single Red. 12-15 in. to 18-24 in.

Camellia Japonica

from the FRUITLAND Collection
(The letter following each Camellia denotes the blooming period.
E-early; L-late; MS-Midseason).

- IMBRICATED: Petals overlapping from center outward; no stamens showing.
- SEMI-DOUBLE: Loose formation, having more than 6 petals; stamens showing.
- PEONYFORM: Full center, usually rather loose formation.
- SINGLE: One row of petals with stamens in center.

CULTURE OF CAMELLIA JAPONICA

Camellias will grow in full sun if protected for the first few summers with a lattice frame. However, an ideal place for planting is where the plants get only a half day's sun. Do not plant in full shade, as they will not blossom as freely. If the soil is not fertile, use the following mixture: one-half good garden soil; one-fourth well-rotted cow manure; one-fourth peat or leaf-mold, well mixed. After planting, mulch with half-rotted leaves or peat. Each spring Camellias should be fertilized with well-rotted cow manure and A-C fertilizer. Keep the plants well mulched and watered.

The foliage is sometimes attacked by a scale-insect, which may be readily controlled by spraying with Volck. Be sure to wet the underside of leaves. This spray material may be found on pages 55-56 of our catalogue.

GROUP No. 1

Alba Plena. (E). Imbricated white. Early. 8-12 in. to 15-18 in.
Arejishi. (Aloka). (E). Peony-type, similar to Prof. Sargent. Red. 8-12 in. to 24-30 in.
Benten. (MS). Large, single red. 30-36 in. to 4-5 ft.
Black Jap. (MS-L). Dark velvet-maroon. Small flower, but prolific bloomer. 8-12 in. to 15-18 in.
Black King. Semi-double, medium size. The color is so dark that it appears black. 8-12 in. to 15-18 in.
Candidissima. (L). Imbricated, white. 8-12 inches.
Carnation. (E). Carnation-form; glowing bright red. Very large compact foliage. 8-12 in. to 18-24 in.
Chandleri Elegans. See Elegans.
Church Pink. (MS). Semi-double pink. Large flower. 18-24 in.
Claudia Lea. (MS). Medium size, single. Delicate pink. 8-12 in. to 15-18 in.
Cliveana. (E). Peonyform, solid pink. 8-12 in. to 24-30 in.
C. M. Hovey. (Col. Firey; Solaris; Mississippian Wm. S. Haste) (MS). This variety was formerly listed as Col. Firey. Imbricated red. Large flower. 12-15 in. to 15-18 in.
Comtesse Canarii. (L). Imbricated salmon-pink, with slight touch of white. 4-inch bloom of lovely color. Heavy bloomer. 8-12 in., 18-24 in., 24-30 in.
Duchess of Sutherland. (L). Very large, semi-double white, with occasional pink stripe on petal. 8-12 in.
Elegans. (Chandler). (MS). Semi-double deep pink and white; loose peony center. On large plants of this variety one will have solid deep pink blossoms. On some blossoms pink will predominate—others white. The formation of the blossoms varies to a great degree also. 8-12 in. to 18-24 in.
**CAMELLIA JAPONICA—Continued**

Group No. 1—Continued

Emperor of Russia. Very large peonyform, showing golden stamens among inner petals. Brilliant red. Dark green foliage. 18-24 in. to 24-30 in.

Empress. See Lady Clare.

Evening Star. (MS). Semi-double, salmon-pink. Large flowers with yellow stamens. 8-12 in. to 18-24 in.

Frau Minna Seidel. (Pink Perfection). (E). Imbricated shell pink; compact; very floriferous. 8-12 in. to 18-24 in.

Herme. (Hikari Gengi; Jordan’s Pride; Souv. de Henri Gouchard) (L). Pink and white. Semi-double. Blossoms slightly fragrant. A favorite with all who know it. 8-12 in. to 18-24 in.

Imbricata Rubra Plena. (Prince Eugene Napoleon; Pope Pius IX; Floreplena Atrorubens; Carlotta Grissi; Mad. Lebois) (E). Imbricated. This much-named deep carmine Camellia makes long growth. 8-12 in., 12-15 in. See colored cut, page 39.

Jim Harper. (MS). Semi-double, light pink. 8-12 in.

Kumasaka. (Lady Marian; Beni-Koroku). (L). Formation of flower similar to Herme, but a solid deep pink. 8-12 in., 12-15 in.

Lady Clare (Empress). (E). Semi-double, rose-pink; broad creped petals; stamens prominent. Very large flower. A rugged variety which will succeed under adverse conditions. 8-12 in. to 18-24 in.

Lady Clare Var. (E). Same as above, but coloring is pink and white. 8-12 in.

Lady de Saumerez. (Tricolor Folki). (MS). Same as Tricolor, except that the white variegation is in blotches rather than stripes. 8-12 in.

Lady Humes Blush. (MS). Very rare is this true imbricated white, suffused with pink. 12-15 in., 15-18 in.

Latifolia. (Superbissima; Fanny Boli) (L). Formerly listed as Leana Superba, Handsome foliage. Blossoms quite large; semi-double; bright red, occasionally blotched white; conspicuous stamens. 8-12 in., to 18-24 in.

Leucantha. (MS). Semi-double white with prominent stamens in center. Similar in formation and growth to Tricolor. All sizes.

Madam Coclet. (MS). Semi-double, pink and white. 30-36 in., 3-4 ft.

Margharita Caleonle. Imbricated, very large, crimson-red flower. Extra good. 15-18 in., 18-24 in.

Mathilda. (L). Imbricated, duchess pink. 8-12 in., 12-15 in.

Mathotiana (Wm. S. Haste; Princess Louise; Purple Prince; Purple Emperor) (MS). Large imbricated as it first opens, opening to semi-double red. Formerly known as Mathotiana Rubra. 8-12 in. to 24-30 in.
**CAMELLIA JAPONICAS—Continued**

**Group No. 1—Continued**

**Mathotiana Variant.** (C. M. Hovey; Paulina) (MS). Large white with red blotches. Formation similar to Mathotiana. 8-12 in. to 15-18 in.

**Monarch.** (Honneur d’Amerique; Red Ball.) (L). Peonyform, deep pink, often spotted white. One of the most handsome camellias. Blossoms often measure 6 in. across. Formerly listed as Gunelli. 8-12 in. to 18-24 in.

**Monjisu Red.** (L). Semi-double red of medium size. 8-12 in. to 15-18 in.

**Monjisu Var.** (California Donckelarii Var.) (L). Semi-double, red and white variegated flowers of medium size. 18-24 in.

**Nagasaki.** (Mikenjaku; Candida Elegantissima; Countess Lavinia Maggi; Lady Audrey Buller). (MS). Large, lustrous green foliage. Very large, semi-double red and white blossoms. 12-15 in., 15-18 in.

**Noblissima.** (E). Semi-double, approaching loose peony, white. 12-15 in. to 18-24 in.

**Otome.** (MS). Imbricated pink, similar to Pink Perfection, but flower larger and sometimes a deeper pink. 18-24 in.

**Panache.** (L). Large imbricated blended pink and ivory white. Vigorous bushy growth. 8-12 in.

**Pink Ball.** (MS). Peonyform, soft pink. Slow grower. 8-12 in. to 15-18 in.

**Pink Star.** (MS). Semi-double rose-pink with golden stamens interspersed with inner petaloids, outer petals pointed giving star formation. Slow grower, 8-12 in. to 18-24 in.

**Prince Albert.** (Concordia; Beautiful) (E). Loose peony, pink and white, and a wide variation of color combinations. Rapid pyramidal growth. 8-12 in. to 30-36 in.

**Princess Bachinachi.** (L). Bright double red with pure white markins. Keeps bud center a long time after opening. 8-12 in. to 30-36 in.

**Principessa Clothilda.** (L). Imbricated, deep pink, mottled white. 8-12 in., 18-24 in., 24-30 in.

**Prof. Chas. S. Sargent.** (MS). Peonyform crimson. Similar to but slightly earlier than Warrata. 8-12 in. to 24-30 in.

---

**Purity.** (Neige d’Or). (E). Imbricated white. Vigorous upright open growth. 8-12 in.

**Rev. John Drayton.** (MS). Semi-double, light pink; loose construction with stamens in center mixed with petals. Flower medium to large. Symmetrical growth. 8-12 in.

**Rosea Grandiflora.** (T. G. No. 113; Louise Maclay). Large, semi-double rose-pink. Variable in form. 18-24 in.

**Rose Queen.** Variegated. Imbricated, medium large rose-pink and white variegated. 12-15 in. to 18-24 in.

**Sacco Vera.** (E). Imbricated, light pink. 15-18 in., 18-24 in.

**Sarah Frost.** (L). Imbricated red. 8-12 in. to 18-24 in.

**Semi-Double Blush.** (L). Blush-pink; medium size blossom. 8-12 in. to 24-30 in.

**Similar to Pink Perfection.** (L). Imbricated pale pink, small flowers. 18-24 in., 3-4 ft.

**Snow Ball.** (MS). Large, full peony form white. Slow upright growth. 18-24 in.

**Stiles Perfection.** (MS). Peonyform, pink and white. 8-12 in. to 3-4 ft.

**Stiles Perfection Pink.** (MS). Pink sport of the above. 8-12 in.

---

Alba Plena. 12-15 in., 15-18 in.

Albus. Large semi-double white with yellow stamens. 30-36 in.

Carol Compton. (MS). Dark red; large anemone form. Fragrant. 12-16 in., 15-18 in., 24-30 in.

Confugration. (MS). Large, semi-double, fiery red, with petals irregular and petaloids inclosed by a ring of prominent stamens. New; rare; beautiful. 24-30 in. to 3-4 ft.

Contesse Lavinia Maggi. Imbricated, very large, pure white ground with cherry striates and lines. 24-30 in., 30-36 in.

Daitarin. (E). Very large, single pink, with a large cluster of petaloids, which gives it the appearance of a semi-double. From Japan. 12-15 in., 15-18 in.

Doctor Merilatt. Large, semi-double, iridescent shade of dark red. 30-36 in.

Donckelarii. (MS). 8-12 in. to 30-36 in. See color photograph on front cover.

Edwin H. Folk. (MS to L). Semi-double, bright red. Very large, loose formation, showing stamens. 24-30 in.

Ermine F.N. (MS). Semi-double, pure white, of medium size. Prominent stamens in clusters in center. 24-30 in. to 3-4 ft.

Etienne de Bore. Large, semi-double, pink blotted white. 24-30 in.

Galilee Variegated. F.N. (MS). Same formation as the Galilee. Color is pink and white variegated. Lovely. 24-30 in., 30-36 in.

George Williams. (MS). Semi-double white with pink stripes and showing yellow stamens. Vigorous grower. 24-30 in., 30-36 in.

FRUITLAND NURSERIES—The South's Oldest Nursery—Augusta, Ga. 25
CAMELLIA JAPONICA

Grafts—Continued

Iwane Shihari. (MS). Large white flecked and marked rose. Solide petals solid rose. Semi-double, with stamens in compact crown. 12-15 in. to 24-30 in.

Jarvis Red Var. This is a variegated sport of the regular Jarvis Red. 24-30 in., 30-36 in.

Jenny Jones. (S-100) (MS). White. Semi-double with crinkly inner petals. Hardy. 15-18 in. to 30-36 in.

Julia D’al. (MS). White: semi-double. Opens perfectly and stands more cold than most whites. 12-15 in. to 18-24 in.

Lady Charlotte. (MS). Large semi-double pink. 18-24 in. to 30-36 in.

Lotus. (L). Semi-double pure white. Extremely large flower with prominent upright stamens. When half open, flower resembles half curled wings of great white swan. 8-12 in. to 24-30 in.

Lucille Flanagan. Semi-double red and white variegated. A seedling from Donckelari. 18-21 in. to 3-4 ft.

Madame Hahn. (MS). Bright pink. Large semi-double. Vigorous; upright. 18-21 in. to 30-36 in.

Magnoliasflora. 12-15 in. to 18-24 in.

Marchiness of Salisbury. (MS). Deep red flower of medium size, peony-centered, showing some stamens interspersed with petals, and few white spots. Foliage of medium size; dark green. 30-36 in., 3-4 ft.

Marion Mitchell Variegated. (MS). Variegated scarlet and white of same formation as Marion Mitchell. 12-15 in. to 24-30 in.

Mathotiana. 8-12 in. to 18-24 in.

Mathotiana Rosea Variegated. (MS). Large, rose-pink and white. Imbricated as it first opens. 12-15 in. to 18-21 in.

Mathotiana Variant. 8-12 in. to 15-18 in.

Mollie Moore Davis. Very large, deep rose pink, lightly washed and veined rose color. Loose imbricated with inner petals interspersed with small groups of white stamens and petaloids. 24-30 in.

Mrs. Baldwin Weed (Thurberhead). (MS). Large, semi-double flesh pink. Medium, upright growth. 18-24 in. to 30-36 in.

Mrs. Harry Sinclair. (S-112). A large, fluffy, semi-double pinkish white flower which opens well. Amount of pink is controlled by season and soil. 13-18 in. to 30-36 in.

OWN ROOTS
Here is a hardy Camellia which will grow vigorously and luxuriantly in full sun. Excellent for specimen planting, being covered at blooming time with hundreds of blossoms. Excellent for hedge planting, growing rapidly and to a good height. The flowers resemble the Cherokee rose in form. You do not wait years for this plant to bloom. Each fall you are assured of a good show of blossoms. Height, 10 ft.

Brilliancy. One of the most beautiful of Sasanquas. Large, single, bright rose-pink. Foliage dark green. Very compact, fairly fast grower. 8-12 in. to 18-24 in.
Cleopatra. Semi-double, rose-pink, having 12 to 14 petals with yellow stamens. Flower about 3 inches in diameter. Foliage dark green. Compact. 8-12 in. to 15-18 in.
Dainty Bess. Salmon pink, resembling the Dainty Bess rose. 8-12 in.
Dawn. Very hardy, asymmetrical, slow-growing. Single to semi-double, ivory-white with flesh pink at margin of petals; yellow stamens. 8-12 in.
Hinode-gumo. Large, single white, shaded deep scarlet. 8-12 in.
CINNAMOMUM—Camphor Tree
Cinnamomum camphora. 40 ft. Hardy in the far South where it makes a sizeable tree.

Each 10
Extra-strong plants, gallon cans $1.00 $7.00
Strong plants from pots .50 4.00

CLEYERA
Cleyera ochracea (C. japonica). 20 ft. A slow-growing plant. New foliage reddish, turning a glossy green. Small, delicately fragrant, creamy white blossoms in June, followed by showy red fruits which are retained all winter.

Thrives in full sun or partial shade.

Each 18 to 24 in. $3.00
12 to 18 in. 2.00

COTONEASTER

Each 24 to 30 in. $2.50
18 to 24 in. 1.50

C. franchetti. 6 ft. Evergreen in South, but not hardy in North. Pinkish flowers in clusters, followed by orange-red fruit, which is retained all winter.

Each 10
3 to 4 ft. $3.50
2 to 3 ft. 3.00
18 to 24 in. 2.00

C. microphylla. 3 ft. A low-growing prostrate shrub; dark green oval leaves. Bright red fruit.

10 to 12 in. $1.00

ELAEAGNUS—Japan Oleaster
Elaeagnus pungens. 10 to 15 ft. Leaves 2 to 4 inches long, very dark green above, silvery beneath; margin of leaf undulating. Creamy white, fragrant flowers produced in November. A beautiful shrub. 2-3 ft. Excellent for shady situations.

E. pungens Fruitlandi. 10 to 15 ft. A variety originated at our Nursery. Evidently a cross of E. macrophylla and E. pungens simoni. Leaves large, pointed, beautiful silvery beneath. This is a very fine addition to our broad-leaved evergreens. 15-18 in., 2-3 ft., 3-4 ft.

ANOTHER FRUITLAND ORIGINATION
E. pungens reflexa (Climbing Elaeagnus). 10 to 15 ft. Will climb to top of fences and unsightly trees, making a dense screen. Birds delight to nest in these plants. Fragrant blossoms in November, followed in March by edible red fruit. 2-3 ft., 3-4 ft.

E. pungens simoni (Simon’s Oleaster). 10 to 15 ft. Foliage elongated, silvery on underside. Plant compact in growth. Fragrant blossoms in November, followed in March by edible red fruit. 3-4 ft.

All above Elaeagnus:

Each 10
3 to 4 ft. $4.00
2½ to 3 ft. 3.50 $30.00
2 to 2½ ft. 2.75 25.00
18 to 24 in. 2.25 20.00
15 to 18 in. 1.75 16.00

ERIOBOTRYA—Loquat (Japan Medlar)
Eriobotrya japonica. 15 ft. This Chinese evergreen is very striking, having thick corrugated leaves to 1 ft. long. Fragrant flowers in panicles produced in December and January. Here it seldom sets fruit.

Each 18 to 24 in. $2.00

FRUITLAND NURSERIES—The South’s Oldest Nursery—Augusta, Ga.
EUCALYPTUS
Eucalyptus pulverulenta. 50 ft. The very blue foliage supplies a pleasing contrast for ornamental planting.
Each
2 to 3 ft. ...........................................$2.25
18 to 24 in. ........................................ 1.00

EUONYMUS
Euonymus japonicus microphyllus. Dwarf, compact evergreen, good for urns or borders. Foliage similar to Buxus sempervirens.
Each
3 to 4 in. ............................................. $ .25

Euonymus Patens
Each
10
2 to 3 ft. ................................................. $2.50

18 to 24 in. ........................................... 2.00

GARDENIA—Cape Jasmine
Gardenia florida. 6 ft. Very large, white, fragrant flowers in middle of May. Foliage glossy.
G. fortunei. Flowers slightly larger than G. florida. 12-18 in.
G. mystery. 6 ft. Flowers large and more attractive than the G. florida.

All Gardenias:
Each
18 to 21 in. ........................................... $1.50
12 to 18 in. ........................................... 1.00

G. radicans. 18 in. Dwarf grower, having miniature flowers with same fragrance as other varieties.
Each
4 in. Pots .............................................. $1.50

GORDONIA—Loblolly Bay
Gordonia lasianthus. 40 ft. A fine evergreen tree with large dark green, shiny leaves. White flowers, similar to the Magnolias, are borne freely on young trees. Native.
Each
2 to 3 ft. ................................................. $2.50

HESPERALOE
Hesperaloe parviflora. 2 ft. The so-called "Red Yucca," A native of Texas; hardy in the southeastern states. Rosy-red flowers on top of stems 3 to 4 ft. tall. Begins flowering in May.
Each
3-yr. ........................................ $1.50

ILEX—Holly
All hollies will be pruned before shipping. Ilex cassine angustifolia. 20 ft. A narrow leaf native Holly having quantities of small red berries in the winter. Ideal for hedges.
Each
5 to 6 ft. ............................................. $5.00
4 to 5 ft. ............................................. 3.50
3 to 4 ft. ............................................. 2.50
I. cornuta. (Horned Holly). 12 ft. Leaves shining green, usually with five sharp spines. Growth compact and pyramidal. Fruit or berries are the largest of any Holly in cultivation. 15-18 in. to 3-4 ft.
I. cornuta burfordi (Burford's Holly). 15 ft. A variety of the above, with few or no spines. Of more rapid growth than the above type. 15-18 in. to 3-4 ft.
Above two Hollies:
Each
3 to 4 ft., specimens .................................. $8.00
2 to 3 ft. ............................................. 4.00
18 to 24 in. ........................................... 3.00
15 to 18 in. ........................................... 2.50
I. convexa. 4 ft. Very similar to I. crenata except leaves are almost round.
Each
24 to 30 in. ........................................... $3.50
18 to 21 in. ........................................... 3.00
12 to 18 in. ........................................... 2.50
I. crenata major. 4 ft. Similar to crenata, except larger foliage. 10-12 in.
Above two varieties:
Each
18 to 24 in. ........................................... $2.50
15 to 18 in. ........................................... 2.00
12 to 15 in. ........................................... 1.50
10 to 12 in. ........................................... 1.00

FRUITLAND NURSERIES—The South's Oldest Nursery—Augusta, Ga.
I. myrtifolia lowii. 10 ft. Very small dark green leaves, having rather large, bright yellow berries. Ideal plant for wet locations.

MAGNOLIA

Magnolia grandiflora. (Southern Magnolia). 50 ft. The grandest of all our native broad-leaved evergreen trees. Nothing more conspicuous can be seen among evergreens when its large, white flowers are fully expanded. Their period of blooming begins in the middle of April and lasts until August. Hardy at Philadelphia. Each

|        |        |        |
|        | 2 to 3 ft., bare roots | $2.50   |
| 18 to 24 in., bare roots | 2.00    |
**MICHELIA—Banana Shrub**

Michelia fuscata (Magnolia fuscata; Banana Shrub). 20 ft. Splendid Southern evergreen, producing yellowish-white blossoms, edged maroon, which emit a very pronounced banana-like fragrance. Desirable for conservatory use in North. Each 12 to 15 in. $2.00, 8 to 12 in. 1.50

**MYRTUS—Myrtle**

Myrtus communis. (True Myrtle). 10 ft. South European, aromatic foliaged white summer flowering shrub. Tender here while young. Each 2 to 3 ft. $2.00, 18 to 24 in. 1.50, 15 to 18 in. 1.00

**NANDINA—Heavenly Bamboo**

Nandina domestica. 10 ft. In the spring and autumn the large compound leaves are tinged with red; in early summer large panicles of white flowers are produced; and in the winter, the crowning glory, terminal spikes of large bright red berries are retained until the following spring. Hardy to Washington and on Long Island. Each 2 to 3 ft., specimens ...$3.00 $27.50, 18 to 24 in., specimens 2.00 17.50, 15 to 18 in. 1.50 12.50, 12 to 15 in. 1.00 9.00

**NERIUM—Oleander**

They commence to bloom the last of April and bloom throughout the summer. The Oleander is a most desirable plant for growing in tubs in conservatories. Height 15 ft.

- **Double Dark Red.** 1 yr., 2 yr.
- **Mme. Peyre.** Very double; triple corolla; pale flesh. 1 yr., 2 yr., 4 yr.
- **Peachblow.** Single peachblow. 3 yr., 4 yr.

**OSMANTHUS—Olive**

Osmanthus fragrans

Osmanthus aquifolium. 25-30 ft. A beautiful evergreen shrub with dark green, spiny-toothed leaves, resembling the Holly. Fragrant white flowers produced in fall. Each 3 to 4 ft. $4.00, 2 to 3 ft. 3.00, 18 to 24 in. 2.50, 12 to 18 in. 1.50.

O. fortunei (Fortune Olive; Holly-leaf Tea Olive). 25 ft. A strikingly beautiful shrub with dark green, spiny-toothed leaves resembling the holly. In fall the plant is covered with deliciously fragrant white flowers. Hardier than fragrans. 15-18 in. to 3-4 ft.

O. fragrans (Oleo fragrans; Sweet Olive; Tea Olive). 18 ft. Small, white flowers which emit a pleasing fragrance are produced in clusters. The blooming period begins in the fall and lasts for several months. It is of easy culture. As a conservatory shrub for Northern florists, it will be found invaluable. 12-18 in.

O. fragrans aurea. Same as fragrans, except flowers are deep cream or yellow. 18-24 in, 24-30 in.

Above three Osmanthus: Each 24 to 30 in. $3.50, 18 to 24 in. 2.50, 12 to 18 in. 1.50

**PHOTINIA**

Photinia glabra. (Red Photinia). 18 ft. Very ornamental evergreen. Can be kept in vivid red foliage by fortnightly pruning. Good for hedges or for accent where a highly colored shrub is wanted. Each 12 to 18 in. $1.50

P. serrulata. 20 ft. A large shrub or small tree. New growth reddish. Foliage serrate and slightly curled; about 6 in. long. Flowers in April; white, in large corymbs. Much planted in its native China. Each 18 to 24 in. $2.00

PLEASE NOTE: Our Nursery is not open for business on Sunday. Our week-day business day begins at 8 A.M.—closing at 4:30 P.M. Saturdays we close at 2:30 P.M.
TRACHYCARPUS—Palm

Trachycarpus excelsa. 12 ft. This Chusan Palm is the only exotic palm which is hardy with us here. The leaves are fan-shaped, growing to 4 ft. wide. A very slow-growing plant.

Each
18 to 24 in. ...........................................$2.50

VIBURNUM

Viburnum burkwoodii. 6 ft. Now! Waxy, pinkish-white flower clusters as large as a tea-cup. The gardenia-scented snowball.

Each
15 to 18 in. ...........................................$2.50
V. japonicum (macrophyllum). 6 ft. Handsome species, compact growth, lustrous shining leaves sometimes 6 in. long.

Each
18 to 24 in. ...........................................$2.00
V. odoratissimum. (Sweet Viburnum). 10 ft. Branched, glossy, green leaves and spreading habit. A handsome shrub, but tender. 18-21 in. to 4-5 ft.

V. tinus (Laurustinus). 10 ft. One of the most handsome and most satisfactory broad-leaved flowering shrubs. The fragrant flowers are creamy white, produced in the greatest profusion in early February, and last for a long time. The buds, before opening, are bright red. A native to the Mediterranean region. Fine for hedges. These plants will be pruned when dug. 10-12 in. to 3-4 ft.

Above two viburnums: Each 10
3 to 4 ft. .............................................$4.50
2 to 3 ft. .............................................$3.50
18 to 21 in. ..........................................2.50
15 to 18 in. ..........................................1.50
12 to 15 in. ..........................................1.00
10 to 12 in. ..........................................0.75

YUCCA

Yucca filamentosa. (Common Yucca.) 6 ft.
A conspicuous plant with fibrous needles. Large clusters of creamy-white flowers in summer. Fine for massing.

Each 10
3-yr. ..................................................$1.75

Y. louisianensis (Bear Grass). A native hybrid Yucca from Louisiana and N. Texas, growing like the well-known "Bear Grass," but with narrow leaves ½ to 1 in. wide. Pure white flowers in clusters on top of 8 ft. stems in May.

Each
3-yr. ..................................................$1.00
2-yr. ..................................................$0.75

GUARANTEE

We guarantee every tree or plant to be in a perfectly healthy condition, up to grade and first-class in every respect when leaving our hands. Our Nurseries are free from disease. Certificate of State Entomologist is attached to every shipment. We fumigate our stock before shipping, as required by state law, so that the assurance of freedom from insects or disease of any kind is made doubly sure. We guarantee satisfaction. We are not responsible for more than the initial cost of plant involved. WE HAVE NO AGENTS
—When requesting information or advice please enclose stamped envelope for reply

Camellias... ONE OF THE MOST FASCINATING PLANTS OF TODAY AND YESTERYEAR

Camellias are long lived plants. Plants planted over 100 years ago are still thriving today.

Order a Camellia today and soon you, too, will be enjoying the exquisite sight of a blossom in your garden.
Camellias...

ARE TRULY

Gems of a
winter garden

BY CHOOSING VARIETIES CAREFULLY, FLOWERS MAY BE HAD EIGHT MONTHS OF A YEAR
CUPRESSUS—Cypress
Cupressus sempervirens pyramidalis (Columnar Italian Cypress). 60 ft. This well-known and popular conifer is most desirable where a formal effect is required. It is compact and shaft-like in habit. Always plant in a dry, sunny location, as it will not stand excessive moisture. Each 18 to 24 in. $2.50

JUNIPERUS—Juniper
SPREADING OR TRAILING VARIETIES

Juniperus chinensis fruitlandi. Sport of J. chinensis pfitzeriana. An improvement on the pfitzeriana. Foliage resembles J. foemina. Each 18 to 24 in. $3.00
15 to 18 in. 2.50
Another Fruitland Origination

J. chinensis pfitzeriana (Pfitzer’s Juniper). 6 ft. This is the most widely planted of the spreading Junipers. Wide spreading branches pendant at ends. Foliage a constant grayish-green. Each 10
30 to 36 in. $3.75
24 to 30 in. 3.00 $27.50
18 to 24 in. 2.50 22.50
15 to 18 in. 2.00 17.50

CHAMAECYPARIS—Retinospora
Chamaecyparis obtusa nana. (Dwarf Hinoki Cypress). 6 ft. Somewhat irregular in outline, this dwarf form of Chamaecyparis relieves the monotony of more formal conifers. The foliage is a rich green, holding its color during the entire year. In growth, the tree is compact and is numbered among the best of the dwarf types. Can be trained and pruned into novel shapes. Each 12 to 15 in. $2.50
10 to 12 in. 2.00

J. communis (Common or English Juniper). 20 ft. Native to North America and Europe. FRUITLAND has a narrow shaft-like variety not to be confused with the loose spreading typical form so often seen. Each 10 to 12 ft. $12.50
J. communis ashfordi (Ashford Juniper). 10 ft. Resembles the Irish Juniper, buthardier, healthier and more desirable for the South. Each 2 to 3 ft. $2.00
15 to 24 in. 1.50
J. virginiana (Redcedar). 50 to 60 ft. Our native “Cedar Pencil” Juniper. One of the most desirable, hardy and accommodating pyramidal trees. Each
8 to 10 ft. $8.00
6 to 8 ft. 6.50
5 to 6 ft. 5.00

FRUITLAND NURSERIES—The South’s Oldest Nursery—Augusta, Ga.
TALL OR CONICAL VARIETIES

J. chinensis foemina (Chinese Juniper). 10 to 15 ft. An attractive variety with spiny, bright green foliage, which does not change its color in winter. Each 10 to 12 ft. $15.00 2 to 3 ft. 2.50

J. chinensis stricta. 10 ft. A compact cone-shaped plant, eventually becoming very broad at base. Foliage soft gray-green. Each 18 to 24 in. $2.00 15 to 18 in. 1.50

THUJA—Biota

ASIATIC VARIETIES.

Thuja orientalis (Oriental Arborvitae). 10 to 30 ft. A beautiful conifer without the golden tint. Variable in form, but the plant we offer is most satisfactory.

Each 5 to 6 ft. $4.00

Each 5 to 6 ft. $6.00 4 to 5 ft. 5.00 3 to 4 ft. 3.00 2 to 3 ft. 2.00 18 to 24 in. 1.50

T. orientalis pyramidalis (Pyramidal Oriental Arborvitae). 10-15 ft. The foliage retains its bright green color all year, thus avoiding the unpleasant brownish effect of some other varieties during the winter season. Compact, upright growth. Each 4 to 5 ft. $5.00

T. orientalis aurea nana (Biota aurea nana). 8 ft. Introduced many years ago by Fruitland Nurseries under the name of "Berkman's Golden Arborvitae," and today is possibly the most popular Thuja for general use in the South or in the North. The golden yellow foliage makes a most pleasing contrast to the deep green of other evergreens. The dwarf compact habit of growth makes it ideal for small gardens, for cemetery planting, window-boxes and for vases. 12-15 in. to 18-24 in.

T. orientalis bonita. A beautiful, broad, cone-shaped arborvitae of unequaled richness in color and perfection of form. Slow growth makes it desirable where other shrubs would over-grow. All sizes.

T. orientalis compacta. A dwarf compact grower, similar to T. orientalis aurea nana, but color bright green. 12-15 in. to 24-30 in.

Above three Thujas: Each

30 to 36 in. $3.75 24 to 30 in. 3.00 18 to 24 in. 2.50 15 to 18 in. 2.00 12 to 15 in. 1.50

Another FRUITLAND Origination

T. orientalis Fruitlandi. 6 ft. Dwarf; dark green foliage. Our own origination. Each

24 to 30 in. $5.00 18 to 24 in. 2.50 15 to 18 in. 2.00 12 to 15 in. 1.50

Jun. Ch. foemina

PINK BUSH ROSES

Columbia—Pink

Columbia. HT. Pink, deepening to glowing shade of pink as the bud opens. A peculiarity is that the shades become more intense until full maturity of flowers. Blooms often measure 6 inches across.

Dainty Bess. HT. A striking and distinct single, broad-petaled flower. The rose-colored blooms are borne in clusters and are distinguished by the large, flat group of stamens.

Devoniensis. T. Creamy white, flesh center; very fragrant. Good bloomer. An old favorite.

Duchesse de Brabant. T. Soft, light rose, with heavy shadings. Healthy, vigorous and free-flowering.

Editor McFarland. HT. A strong growing variety of upright habit. Flowers clear deep rose-pink. Good form.

Grace Noll Crowell. HT. Brilliant pink, heavily veined crimson; yellow base.

Killarney. HT. A favorite brilliant silvery pink Rose, beautiful in bud and open blooms. Free bloomer and strong grower.

Mme. Butterfly

Mme. Butterfly. HT. A Rose that is in great demand. Sport of Ophelia, but with more blooms and more petals to the bloom. Color bright pink, with lovely deeper center.

Maman Cochet. T. Deep rose-pink; inner side of petals silvery rose; very double. Fine bloomer. Strong.

Paul Neyron. HP. The flowers are immense, probably the largest of all Roses. Bright shining pink, clear and beautiful, double and full; finely scented.

Radiance

Radiance. HT. Brilliant rosy carmine, shaded with rich pink tints; large and full. Strong, upright stems.

The Doctor. Sparkling pink buds, pointed. One of the largest of all blooms. 5 to 6 inches across.
RED BUSH ROSES
American Beauty. HP. This is the well-known rose of dark pink or carmine color. Very fragrant.
Ami Quinard. HT. Deepest velvety red, sometimes called "The Black Rose." Tall grower.
Charles K. Douglas. HT. Flowers large, semi-double, brilliant light crimson, with scarlet undertone.
E. G. Hill. HT. Great massive blooms of deep maroon, velvety on inside.

![Etoile de Hollande](image1)

Etoile de Hollande. HT. Flower bright red, of medium size, fairly full, deliciously perfumed. Upright, vigorous plant. We consider this the best red rose grown.

Floradora. Floribunda. Quantities of vivid geranium-red, 25-petaled blooms are produced all season on erect, symmetrical plants furnished with large, wavy, glossy foliage.

Louis Phillippe. C. Dark crimson; fine for for massing. Excellent grower. Old-time rose.

Margaret McGredy. HT. Moderately fragrant, orange-scarlet blooms that do not fade. Flowers are extremely large and double. Fine glossy foliage.

Red Radiance. HT. A splendid, even shade of clear red. Vigorous grower and a remarkable bloomer.

THE POPULAR TWO-TONED ROSES
Betty Uprichard. HT. A pretty combination of colors—inside delicate salmon-pink to carmine, outside glowing carmine with coppery sheen and orange suffusion. Well-formed, medium-sized flowers of good substance and sweet scented.

![Talisman](image2)

Talisman. HT. Golden yellow, stained with copper-red and orange; rose on the inside of petals.

UNUSUAL ROSES
Better Times. (U. S. Plant Pat. No. 23.) Excellent red. Has pointed buds; long stems; fragrant. A grand cut-flower and should be in every garden. Price, $1.50.

Mirandy. HT. (Plant Pat. 612.) Deep crimson. Glorious, great-hearted blooms of the richest crimson with royal fragrance. Flowers very large, fully double, beautifully formed. Unfolding slowly, they last well. $2.00 each; 3 for $5.50.

All American selection.

![Sutter's Gold](image3)

FRUITLAND NURSERIES—The South’s Oldest Nursery—Augusta, Ga.
WHITE BUSH ROSES

Caledonia—White

Caledonia. HT. Large; white; full; double; high-centered.

Frau Karl Druschki (White American Beauty). HP. This is deservedly one of the most popular free blooming Roses. Flowers pure white, perfect in form. Plants strong growers, perfectly hardy everywhere. A truly magnificent Rose.

Kaiserin Auguste Viktoria. HT. Best white Hybrid Tea grown. Creamy white; very double; buds large and pointed.

Konigin Louise. HT. One of our best whites. Double and high-centered, slightly fragrant, good bloomer. Good foliage and a vigorous bush.

White Maman Cochet. T. Pure white, sometimes tinged blush. A superb Rose.

YELLOW BUSH ROSES

Golden Dawn. HT. The ideal yellow garden rose. Lemon-yellow buds develop into well-formed, sweetly scented, large, double flower, heavily splashed with crimson. Vigorous and free-flowering.

Lady Hillingdon. T. Apricot-yellow; beautiful bud. Strong and vigorous grower; free bloomer. Excellent.

Luxembourg. HT. Makes large, beautifully pointed bud, and open flower is full and compact. A deep golden yellow.

Roslyn. HT. An excellent yellow rose; medium-sized, long-pointed bud. Flower large, semi-double, lasting, slightly fragrant, golden yellow.

Sœur Therese (Sister Therese). HT. Chrome-yellow, heavily marked with carmine. Five or more blooms to a 3-ft. cane.

Sunburst. HT. This beautiful Rose has been thoroughly tested, and it easily stands at the head of all sorts of its kind.

CLIMBING ROSES

PINK CLIMBING ROSES

Anemone (Pink Cherokee). Laev. Large, beautiful, single pink flowers.

Cherokee, Pink. See Anemone.

Cl. Devoniensis. Cl. T. Creamy white, flesh center; very fragrant. Good bloomer. An old favorite.

Cl. Maman Cochet. Cl. T. An exact counterpart of the popular bush form, except that it is a vigorous climber.

Cl. Radiance. Climbing pink. See description under bush variety.

Dr. W. Van Fleet. HW. Large, delicate flesh-pink, deepening to rosy-flesh in center.

Madam Gregoire Staechelin (The Spanish Beauty). C. HP. Buds long-pointed; very large, moderately fragrant flowers of delicate pink with deeper shade on outside petals. Disease-resistant; vigorous grower; abundant bloomer.

Mary Wallace HW. One of the best and loveliest Wichuralanas yet discovered. Flowers a bright, clear rose-pink, with salmon base to the petals; semi-double and well formed.

RED CLIMBING ROSES

Climbing American Beauty. HW. Well-formed, fragrant, crimson flowers, 3 to 4 inches in diameter, in April and May. Strong grower. Holds foliage late.

Cl. Etole de Hollande. Climbing form of the well-known deep red bush.

Cl. Red Radiance. See description under bush variety.

Paul’s Scarlet Climber. IIW. Vivid scarlet, shaded crimson. Makes a brilliant display for a long time in the garden.

Ramona (Red Cherokee). H. Laev. A companion to White Cherokee, but with red flowers.

Reine Marie Henriette. Cl. HT. Bright cherry-red; good form; vigorous habit.

WHITE CLIMBING ROSES

Banksia. White. B. Small, double, white flowers in clusters.

Cl. Caledonia. Cl. HT. Large; full double; high-centered.

Cherokee, White. Laev. A fragrant, pure white Climbing Rose that is thoroughly at home in the South. The flowers are about 3 inches across and borne singly in late spring. It is a vigorous and rampant grower, with shining, glossy foliage, and makes a desirable covering for pergolas and trellises.

Fortune (Double White Cherokee). Laev. An evergreen climber with double white flowers 2 1/2-3 in. in diameter. Late.

FRUITLAND NURSERIES—The South’s Oldest Nursery—Augusta, Ga.
Silver Moon. HW. Large, pure silvery white blooms. Vigorous growth.
Cl. White Maman Cochet. Cl.T. Creamy-white; large bud and full flower, with outside row of petals being tinged pink.

YELLOW CLIMBING ROSES

**BANKSIA YELLOW.** R. Small, double sulphur-yellow flowers in clusters. Almost thornless. Old fashioned. RARE. $1.50 each.

Jacotte. HW. Bud large, orange yellow, opening to semi-double deep coppery-yellow, tinted coppery-white. Grower together on long, strong stem. Fragrant, profuse bloomer.

**MARECHAL NIEL.** Nois. Deep chrome-yellow. A great favorite. Limited stock. $1.50 each.

TWO-TONED CLIMBING ROSES

Cl. President Hoover. Climbing two-toned. See description under bush variety.
Cl. Talisman. Cl. HT. Sport of Talisman described in bush roses. Good grower.

VINIES

**AMPELOPSIS—Ivy**

Ampepsis tricuspidata (Japanese or Boston Ivy). A deciduous vine of rapid growth, suitable for covering walls, stumps, etc. Strong plants. 35c each; $3.00 for 10.

**ANTIGONON—Coral Vine**

Antigonon leptopus (Rosa de Montana). Commonly called Mexican Rose. The flowers, which are carried in long sprays, are bright rosy pink. It is a desirable Southern vine, blooming freely from June until fall. The top dies down in winter, and therefore the roots should be protected with a mulching of leaves. Growth does not begin until April, therefore shipment cannot be made until early April.

Each 10 Extra strong $ .50 $4.00

**BIGNONIA—Trumpet Vine**

Bignonia capreolata (Cross Vine). A handsome, vigorous-growing evergreen, native climber, producing, in early April, a great profusion of trumpet-shaped flowers about 2 inches long, yellow-red on outside with yellow throats. Hardy in North. Strong plants from 4-in. pots. 50 cents each; $4 for 10; 2½-in. pots, 35 cents each, $3 for 10.

B. venusta. (Flame Vine). Profusion of bright orange-colored flowers. This variety is tender in Georgia and northward, but makes bright display in green house.

4-in. pots $1.00 each

BOUGAINVILLEA—Paper Vine

Bougainvillea spectabilis. Crimson Lake. Crimson flowers resembling crepe paper. This vine is tender in Georgia and northward.

5-in. pots $1.00 each

CLEMATIS

Clematis jackmani (Jackman Clematis). Large, intense violet purple blooms. Free and abundant bloomer. The most popular large-flowering Clematis. Extra-strong 2-yr. plants, $1.00 each.

C. Mme. Edouard Andre. Large; violet-red. Strong grower and free bloomer. Extra-strong 2-yr. plants, $1.00 each.

C. paniculata (Sweet Autumn Clematis). Very fragrant, white, star-shaped flowers produced in profusion during mid-summer and fall on long shoots. Handsome foliage. Extra-strong, 2-year field-grown plants.

Each, 50c.

Note: Clematis does best in deep, rich soil. As soon as the plants are set out, supports on which to climb should be provided.

On account of the large-flowering Clematis being hard to handle, even in packing, we cannot agree to replace any that do not live.

CLERODENDRUM

Clerodendrum thomsonae. A twining evergreen plant with long, ovate leaves and small flowers which have white calyx and brilliant crimson tips. For pot culture, except in deep South. 5-in. pots, 50c each.
FICUS—Climing Fig

Ficus pumila (F. repens). An evergreen climber with small, bright green leaves, and an excellent plant for covering walls, rocks, and rustic work. Makes a dense, dark green covering. In protected situations the vine is hardy in Augusta. Strong plants. 35 cents each; $2.50 per 10.

GELSEMIUM—Jessamine

Gelsemium sempervirens (Carolina Jessamine). Our native variety. Many bright yellow, fragrant flowers, in early spring. Each 10 Extra-strong plants $ .75 $6.00
Strong, nursery-grown clumps $ .50 4.00

HEDERA—Ivy

Hedera canariensis (H. algeriensis; Algerian Ivy). Very fine variety with pretty green leaves of immense size. A rapid grower and most conspicuous plant. Not quite so hardy as the English Ivy.
H. colchica. (Sometimes called Guignard Ivy). Very large, thick leaves.
H. helix (English Ivy). Too well-known to need description.

Hedera helix gracilis. (Small-leaved English Ivy) Foliage smaller than H. helix.
H. helix self-branching. A new variety which is as desirable indoors as outdoors. Begins branching when only a few inches tall.
All Ivy: Each 10 100 Heavy $ .25 $2.00 $17.50

HONEYSUCKLE. See Lonicera.

Japanese or BOSTON IVY. See Ampeloopsis.

IPOMOEA

Ipomoea bonariensis. (Morning Glory). Perennial Morning Glory with lilac or claret-colored flowers in fall. Vigorous grower. Delivery after April 1.
I. leari (Blue Dawn Flower). A perennial Morning Glory from tropical America. Planted in early spring, it will grow to 25 to 30 ft.; producing from July until frost hundreds of royal blue flowers, often

KADSURA

Kadsura japonica (Scarlet Kadsura). A handsome Japanese climbing evergreen. Leaves 4 to 5 inches in length. Dark green. The young growth of both the stems and leaves is red, giving the plant a bright appearance. Each 10 Strong, 2-yr. plants $ .75 $6.50

LONICERA—Honeysuckle

Lonicera browni (Brown's Honeysuckle). A strong, rapid growing evergreen variety with orange-scarlet flowers in April. A

Ipomoea leari

Ivy (Hedera Helix)

Lonicera
decided improvement on L. sempervirens (Woodbine), both as to foliage and bloom.

L. heckrottii (Everblooming Honeysuckle). Flowers rose-colored on the outside, yellow in the center. A most excellent evergreen variety. Blooms continuously from early spring till winter.

L. japonica halliana (Hall's Japanese Honeysuckle). A very vigorous evergreen climber. White flowers changing to yellow are borne in late spring or early summer, and again sparingly in the autumn. Good for trellis and ground-covers.

**Carnation**

Hardy Red. Solid deep red of medium size. Fragrant. 35c each.

**Daisy**

Admiral Byrd. Very large white, with yellow center. More petals than Shasta. Tall stems. 50c each; $4.50 per 10.

Shasta Alaska. Large flowers. 35c each; $3.00 per 10.

**Delphinium—Hardy Larkspur**

Belladonna. Spikes of clear turquoise-blue blossoms. 35c each; $3.00 for 10.

**Dianthus—Pinks (Barbatus)**

Pink Beauty. Salmon-pink blossoms, excellent for cutting.

Plumarius. The old-time grass pink. We offer a mixture of single and double forms in shades of pinks and reds. Both Dianthus 25c each; $2.00 per 10.

**Fruitland Nurseries—The South’s Oldest Nursery—Augusta, Ga.**
GERBERA
TRANSVAAL OR AFRICAN DAISY
Gerbera jamesoni hybrids. A spring blossoming perennial having daisy-like flowers to 4 inches across in a color range of crimson to white. We offer only mixed colors. In planting, do not cover the crown of the plant as it might not come out. 40c each; $3.50 per 10.

GYPSOPHILA—Baby’s Breath
Repens Bodgeri. 2 ft. Pure white, double-flowering. Dwarf. Good for garden and for cutting. 50c each; $4.50 per 10.

HELIOTROPE
Can be used in beds or in pots. Flowers bluish-lavender; very fragrant. 2½ in. pots 15c each; $1.25 per 10.

HEMEROCALLIS—Daylily
Hemerocallis florham. (Golden Daylily). Golden yellow, trumpet-shaped flowers on two-foot stems, starting to blossom in late May.
H. fulva. (Tawny Daylily). Orange trumpet-shaped flowers on three or four-foot stems, starting to blossom in June.
H. fulva flore-pleno. (Double tawny Daylily). Flowers are double and begin blossoming in July.

Prices on above three Hemerocallis: 20c each; $1.50 per 10.

H. Bagdad. June-July. 42 inches high. A gay combination of several colors—orange-red, yellow and madder brown.

FRUITLAND NURSERIES—The South’s Oldest Nursery—Augusta, Ga.
HOLLYHOCKS
We offer the improved double varieties in colors of Yellow, Crimson, Pink and White. 30c each; $2.50 per 10.

IBERIS—Hardy Candytuft
Iberis sempervirens. Hardy candytuft. Evergreen foliage and spikes of white blossoms in early spring. Ideal for edging beds and borders. Strong clumps. 35c each; $3.00 per 10.

IRIS GERMANICA—Tall Bearded Iris or Flag
We offer the following varieties, covering a wide range of color. More of these “Poor Man’s Orchids” should be planted. S denotes Standards, F denotes Falls.
Ambassadeur. Large; S., smoky reddish-lavender, F., velvety purple-maroon; fragrant; vigorous. Late.
Crimson King. Rich claret-purple; fragrant; early; free bloomer.
Dolly Madison. Large pink. Perfect form.
Dream. Soft pink, tinged lavender; fragrant; mid-season; vigorous; free bloomer.
Early White.
Empire. Yellow.

MOONLIGHT. Large, fragrant, silvery-white, with beautifully veined green-gold throat, with striking yellow beard. A beauty.
Pluie d’Or. Deep, clear yellow. Tall.
Rameses. Blending of tourmaline pink and soft yellow, with pronounced yellow glow at center.
Santa Barbara. Pure lavender-blue; large, perfect form.
Talisman. Exact colors of Talisman Rose. Fragrant.

Price on above varieties. 25c each.

IRIS—Oriental
Should be planted only in damp locations.
Eumee. 32 in. A very handsome single, deep rich blue-purple. Uniform color throughout.
Gold Bound. 34 in. A perfect double white with wax-like petals.
Mahogany. 36 in. Double mahogany-red.
Nishiki-Yama. 40 in. Large red, suffused white; yellow throat.

Price on Oriental Iris...........................................$ .75

LANTANA
Satisfactory summer blooming perennial. Tops die down here in winter, but with a little protection will come out again in spring.
Deliciissima. Trailing lavender.
Plants from pots 25c each; $2.00 per 10.
Delivery April 1st.

LIRIOPE—Lily-Turf
Liriope muscari. An Asian evergreen stemless herb. Blue flowers on spikes in July followed by black shining berries. Ideal ground cover for shade or sun. 25c each; $2.00 per 10; $15.00 per 100.
L. spicata. One of the best evergreens for carpeting the ground under trees and in shady places where grass will not grow. Narrow grass-like leaves to 12 in. long with white to violet flowers in July and August. Spreads very rapidly, making a dense ground cover very quickly. 15c each; $1.25 per 10; $10.00 per 100.
MINT
Foliage used for flavoring. Clumps 15c and 25c.

OPHIOPOGON—Snakehead
Ophiopogon jaburan vittata (Snakehead). A grass-like plant having long, narrow, green and yellow foliage and blue flowers in late summer. 35c each; $3.00 per 10.

PAEONIA—Peony
Peonies do best in rich, rather moist, loamy soil, and if plants are protected from the hot afternoon sun they will give excellent results. They should have a liberal supply of water at all times, especially when in bloom during April and May. Fertilize well with cow-manure. Keep the ground well cultivated. If these few simple directions are carried out, the result will be most satisfactory.

Edulis Superba. Pink.
Festiva Maxima. White.
Karl Rosenfield. Red.
$1.00 each.

PHLOX

P. paniculata Mrs. Jenkins. White.
P. paniculata Rheinlander. Salmon pink.
Above five Phlox: Clumps, 30c each; $2.50 per 10.
P. subulata rosea. 6-in. A low growing evergreen with moss-like foliage and pink flowers at the same time as P. divaricata, which makes an excellent combination. 2-yr. 15c each; $1.25 per 10.

SALVIA
Salvia leucantha. 3 ft. Producing in late summer and fall many spikes of lavender flowers shading into white. 4 in. pots, 50c each.
S. pitcheri. 3 ft. A herbaceous perennial having rich, navy blue flowers late summer until frost. 35c each; $3.25 per 10.

STOCKS
Spring and early summer bloomers. Hardy in this section. Double mixed colors 2½ in. pots 15c each; $1.00 per doz. March delivery.

VIOLETS
Violets. Sweet purple. $0.60 per 100.

---

BAMBOOS AND ORNAMENTAL GRASSES

ARUNDO—Giant Reed
Arundo donax (Giant Reed). A fine hardy variety with long, green leaves.
A. donax variegata (Striped Giant Reed). A hardy, vigorous variety with long leaves, striped green and white. Very striking.
Strong roots, 35 cents each; $3.00 for 10.

BAMBUSA. See Phyllostachys.

CORTADERIA—(Gynernium)—Pampas Grass
Cortaderia argentea (Common Pampas Grass). Silvery, plumelike spikes of flowers. An old favorite for grouping on the lawn.
C. roî de roses. Same as above, except that plumes, when first opened, have a rose tint.
Each 10
Extra heavy clumps $2.00 $17.50
Heavy .............................................. $1.00 8.00

EXOTIC BAMBOOS

FRUITLAND NURSERIES—The South's Oldest Nursery—Augusta, Ga.
BULBS

Amaryllis

AMARYLLIS
Etxra strong.....75c each
Medium...............50c each; $4.00 per 10
Hybrids: mixed colors. Strong bulbs.

P. aureosulcata. 15 ft. From China. A hardy, rather dwarf bamboo of running type. Has withstood zero temperature with little injury to leaves. Canes useful for staking plants, fishing poles and other purposes on the farm.
P. bambusoides (Japanese Timber Bamboo), 30 to 50 ft. The tallest of all the Bamboos. Spreads slowly.
P. henonin. (P.I. 24781). This variety is widely cultivated in China and Japan. Culms grow up to 45 feet high. Canes 3½ in. diameter, not as heavy as most of the giant growing sorts. Young shoots are edible. Foliage rarely 4 inches long.
Sasa tessellata. A very large-leaved, low-growing, hardy, Chinese bamboo of running habit, rarely taller than 3 ft. Single leaves to 23 inches long by 3½ inches wide. A rare species.
Sasa pygmaea. 10-12 in. Dwarf bamboo. Excellent ground cover.
Semiarundinaria fastuosa. 40 ft. A Japanese bamboo related to our Southern Cane Reed so often used for fishing poles. In very limited quantities.
Shibataea kumasaca. 3-5 ft. Small canes, almost solid. Spreading habit. Excellent for staking pot plants.

All bamboos: Each 10
Extra-strong divisions .....$1.00 $9.00
Strong divisions .............. .75 6.50

Centipede Grass Cuttings...........$3.00

Becoming popular in this section. The blade of this grass is not as wide as the Charleston Grass.

Charleston or St. Augustine Grass Cuttings ............................................$3.00

Wideblade grass, suitable for summer lawns. One bushel makes 600 to 800 cuttings, and will plant approximately 600 sq. ft.

HAVING TROUBLE TRYING TO PRODUCE A LAWN UNDER DENSE SHADE OF OVERHANGING TREES?

If all efforts have failed, FRUITLAND suggests that you consider a ground cover in such spots. Below you will find a few suggestions:

LIRIOPE—HEDERA HELIX—VINCA

DAFFODILS
King Alfred. Yellow. $1.90 doz.

GLADIOLUS
Mixed colors. Large flowering. 75c per doz.; $6.00 per 100. A splendid mixture of fine varieties. In it you will find a rich combination of bright-colored flowers. Delivery in January.

HEDYCHIUM
75c each
Hedychium coronarium. (Ginger or Butterfly Lily). 3 to 6 ft. Clusters of fragrant white flowers resembling white butterflies, in summer and fall.

HYACINTHS (Holland Grown)
20c each; $2.00 per doz.
Queen of Blues. Bright, dark blue, compact-trusses.
L’Innocence. Pure white.
Marconi. Bright, deep rose.

JONQUILS
Campernelle Rugulosus. Double. Yellow; very fragrant. $1.25 per doz.

LILIES
Hardy Garden Varieties.
Croft. One of most satisfactory Easter Lilies. Dwarf, free-flowering. Large blooms. 50c each.
Estate. One of the finest yet. Stems 5 to 6 ft. tall with 6 to 9 huge blooms per stem. Hardy. Wonderful. 50c each.
ORNAMENTAL PLANTS

For Pots and Greenhouses

Beloperone guttata (Shrimp Plant). Flowers resemble a boiled shrimp in shape and color.
4-in. pots .................................. 50c each
